

## ALEXANDER STREET Health and Society in Video

"Excellent. . . All are high-quality videos of substantial depth. . . This resource is a welcome addition of consistently reliable, trustworthy content. . . Highly recommended." - *CHOICE*

*Health and Society in Video* bridges the often significant gap between science and public understanding, presenting the realities of illness, treatment and the modern healthcare system around the world, and examining the tumultuous history of society's response to pandemics and other health crises. Content explores first-person accounts by patients, physicians, family members, and care providers—real-life case studies of disease, trauma, neglect, chronic illness, age-related conditions, congenital abnormalities, and environmental illnesses.

Topics covered include pediatric AIDS, breast cancer, the Obama administration's healthcare plan, addiction, hospice care, Alzheimer's disease, organ donation, malnutrition, access to healthcare, and others. , *Health and Society in Video*

- ☞ 500 hours of documentaries, profiles, reports, and interviews—from top producers such as Fanlight Productions, BBC, PBS, Point du Jour International, Aquarius Healthcare Media, and many others.
- ☞ Explores society's most pressing health issues from diverse, often personal, perspectives.
- ☞ Provides context to Health Science study by delivering streaming documentaries focused on health issues and their impact on society.

### **SAMPLE TITLES INCLUDE:**

- ▶ *Cancer Knockout* (Danish Broadcasting Corporation, 2010),
- ▶ *Selling Sickness* (Fanlight Productions, 2004), *A.I.D.S. at 21:*
- ▶ *Is Anybody Listening* (Aquarius Health Care Media, 2004),
- ▶ *Where Did I Put My Memory?* (Point du Jour International, 2010),
- ▶ *Death on Request* (Icarus Films, 1994) and hundreds more.

- ▶ "Minimising Health Inequalities: Innovative Australian Case Studies" directed by Evan Clarry, (Victoria (Australia): Video Education Australasia, 2010)

Like residents of most countries around the world, many Australians experience unequal opportunities to access even the most basic health treatments. This program provides three case studies of Australian organisations: Sacred Heart Mission, Bendigo Community Health Services and Inner South Community Health Services, who have all developed innovative programs to help minimise the impacts of health inequalities.

- ▶ "Cultural Diversity In Nursing Practice" directed by Michael Rowe , (Victoria (Australia): Video Education Australasia, 2010)

To deliver the most appropriate and effective medical treatment to such a broad spectrum of people, nurses must have an understanding of the way different cultures interact. Framed as a discussion forum, this program offers a starting point for training in transcultural nursing. We define culture and multiculturalism in Australia, and discuss the aspects of transcultural nursing, the dangers of cultural conflict, and effective multicultural communication methods.

### TOOLS FOR TEACHING AND LEARNING

- ✓ Controlled vocabularies and semantic facet browsing allow users to discover new materials and find exactly what they need.
- ✓ Shareable playlists add all of your favourite films and clips into an online playlist so you can easily share the link or slide it seamlessly into any syllabus or LMS.
- ✓ Searchable transcripts, annotation tools, and an instant citation exporter all empower users to make new connections and share what they have discovered with each other.
- ✓ Embed features allow for easy LMS integration.
- ✓ Downloadable user guides help expedite course integration.
- ✓ Clip maker creates video clips with a single click, automatically populating title and abstract information.
- ✓ Easy export citation allows you to export, download and email full accurate citations in APA, Chicago and MLA formats.
- ✓ Visual tables of contents let you quickly scan each video.
- ✓ Permissions for in-class, on-campus, and remote-access viewing are all included in the terms of the subscription.
- ✓ Unlimited users can view films at the same time from the library, their home computer, or their mobile device.
- ✓ No special setup or software is required—all you need is an Internet browser.
- ✓ Users can view films at the same time from the library, their home computer, or their mobile device.
