

## ALEXANDER STREET Veterinary Education in Video

***Veterinary Education in Video*** is carefully cultivated to deliver high-caliber content relevant to veterinarians, vet techs, assistants, and other team members. The collection features video addressing the needs of small, large, avian, and exotic animals and provides insight into animal reactions and other subtleties that are often lost in text-only approaches. The content also covers the realities of clinical situations to prepare students for managing the expectations of animal owners, develop their business acumen, communication skills and service delivery skills.

Passing an oral gastric tube during abdominal surgery on an anesthetized animal is challenging, especially when a student has only ever read a page or two about how the procedure is performed. But when veterinary professionals-in-training are given a front row seat to watch the procedure performed in streaming video, they'll be equipped with the knowledge necessary for success when it comes time to practice on a patient. Many of the techniques within the collection are delivered in concise clips, allowing students to quickly locate the precise skills and demonstrations they're most interested in, and enabling faculty to easily share key concepts with students in the most efficient manner.

- ✓ More than **500 procedures and techniques** across more than **600 titles**
- ✓ Covers clinical skills, explanations of conditions, and training on technology and animal handling.
- ✓ An encyclopedic resource on veterinary science and care.
- ✓ Features demonstrations from many of the field's most respected experts.
- ✓ All content is from content partners approved by the Registry of Approved Continuing Education (RACE).
- ✓ Key partners include the DoveLewis Emergency Animal Hospital and Animal Care Technologies
- ✓ All content has been published or updated since 2007, and more than one-third has been developed since 2010.

### TOPICS COVERED INCLUDE

Anesthesia  
Animal handling and lifting  
Animal restraint  
Breathing conditions  
Breed identification  
Canine ear health  
Splinting  
Nail trimming  
Oxygen administration  
Respiratory distress

Check-out procedures  
Dental/oral care  
Diabetes mellitus  
Diagnostic ultrasound  
Directional terminology  
Drawing blood  
Equine health  
Surgical instrumentation  
Pain management  
Parasite treatment

Evaluating EKGs  
Eye injury  
Fecal testing  
Heart conditions  
Home care instruction  
Intravenous techniques  
Medication administration  
Vaccination  
Wound care  
Practice management  
Radiology

## EXAMPLE TITLES INCLUDE

- ▶ *Anesthetic Equipment Preparation and Patient Monitoring*, William Muir, DVM, PhD, ACVA, ACVECC, 8 min. (2011)
- ▶ *Better Understanding the Veterinary Client*, David Grant, DVM, 29 min. (2007)
- ▶ *Central Line—Seldinger Technique*, Meredith Rose, CVT, VTS (ECC); Joanie Abrams, CVT, 18 min. (2011)
- ▶ *Challenging Urethral Obstructions in Dogs and Cats*, Coby Richter, DVM, MS, DACVS, 63 min. (2011)
- ▶ *Dental Extraction Sequence*, Richard Johnson, DVM, 5 min. (2007)
- ▶ *Equine Radiology*, Joanna Bassert, VMD, 4 min. (2009)
- ▶ *Esophagostomy Tube Care and Feeding*, Rachel Kinney, CVT, 9 min. (2012)
- ▶ *Feline Neuter*, Jenny Mitchell, DVM, 3 min. (2012)
- ▶ *Field Physical Exam*, Joanna Bassert, VMD, 12 min. (2009)
- ▶ *Hanging Leg Surgery Patient Preparation*, Ashley Magee, DVM, DACVS, 6 min. (2012)
- ▶ *Rigid Rhinoscopy*, Lee Herold, DVM, DACVECC, 5 min. (2012)

## ACCESS POINTS FOR RESEARCH AND DISCOVERY SPECIFIC TO THIS COLLECTION

Like all of Alexander Street's video products, *Veterinary Education in Video* features *Semantic Indexing*, which allows users to search for content using a broad range of highly targeted criteria. This technology makes possible detailed searches such as:

- Q What are the benefits and precautions of flow-by oxygen administration versus nasal prong delivery in a small animal?
- Q Show me a proven approach for explaining congestive heart failure, specifically hypertrophic cardiomyopathy, to a pet owner.
- Q Which nerves are affected when performing a brachial plexus block for a surgical procedure?

## TOOLS FOR TEACHING AND LEARNING

- ✓ Controlled vocabularies and semantic facet browsing allow users to discover new materials and find exactly what they need.
- ✓ Shareable playlists add all of your favourite films and clips into an online playlist so you can easily share the link or slide it seamlessly into any syllabus or LMS.
- ✓ Searchable transcripts, annotation tools, and an instant citation exporter all empower users to make new connections and share what they have discovered with each other.
- ✓ Embed features allow for easy LMS integration.
- ✓ Downloadable user guides help expedite course integration.
- ✓ Clip maker creates video clips with a single click, automatically populating title and abstract information.
- ✓ Easy export citation allows you to export, download and email full accurate citations in APA, Chicago and MLA formats.
