

NURSING EDUCATION IN VIDEO: THIRD EDITION

Nursing Education in Video: Third Edition is an up-to-date collection of training and demonstration videos designed to help students improve their clinical skills. This resource provides access to Medcom's complete collection of 300+ full-length training videos allowing your patrons anytime, anywhere access to the latest resources available for nurse training so they can provide the best possible patient care.

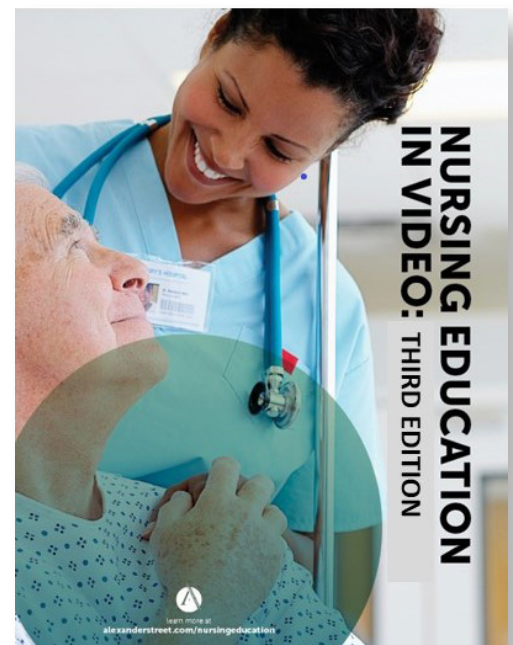

New and revised content will be added yearly through the end of 2024.

Medcom nursing videos are:

- An ideal fit for associate and bachelor degree programs.
- Fully compliant with federal regulations from agencies such as OSHA and CMS
- Fully accredited by the American Nurses Credentialing Center – the gold standard for nursing content accreditation.
- The highest quality available. They have won more than 50 major awards for excellence, including the prestigious Emmy award.
- Updated to reflect the most current, best-practice standards.

Publication details:

- For collection sale
- Subscription and perpetual rights available
- World-wide rights
- For academic and public library use
- 40 revised or newly commissioned titles will be added each year
