Help students and practitioners understand the diagnostic criteria and coding systems in the DSM-5® and ICD-10 manuals.

The Diagnostic and Statistical Manual for Mental Disorders®, Fifth Edition (DSM-5) and the World Health Organization’s *International Statistical Classification of Diseases and Related Health Problems, 10th Revision* (ICD-10) are the required manuals for diagnosing mental illness. Now, for the first time, you can help your students understand these diagnosing classifications with this new and exclusive video collection: *Diagnosing Mental Disorders: DSM-5® and ICD-10*.

Diagnosing Mental Disorders: DSM-5® and ICD-10 illustrates and explains the most common disorders and their coding within each manual. The collection aims to give students and healthcare providers greater insight into mental health disorders and their classifications and provide a means of understanding the diagnostic tools used by clinicians in practice.

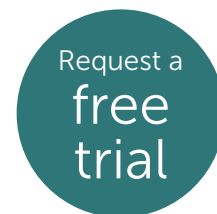

ICD-10. Each program uses dramatic scenarios with professional actors to demonstrate the characteristics, diagnoses, co-morbidities, and differential diagnoses of a given category of mental disorder, and includes interviews with expert professionals in the field of mental health.

The collection includes 21 individual video titles covering the following topics:

- | | |
|---|-------------------------------|
| Diagnostic Criteria | Eating Disorders |
| Neurodevelopmental Disorders | Elimination Disorders |
| Schizophrenia and Other Psychotic Disorders | Sleep Disorders |
| Bipolar Disorders | Sexual Dysfunctions |
| Depressive Disorders | Gender Dysphoria |
| Anxiety Disorders | Impulse and Conduct Disorders |
| Obsessive-Compulsive Disorders | Addictive Disorders |
| Trauma-Related Disorders | Neurocognitive Disorders |
| Dissociative Disorders | Personality Disorders |
| Somatic Symptom and Related Disorders | Paraphilic Disorders |
| | Other Mental Disorders |

To create the collection, Alexander Street partnered with educational film producer Classroom Productions to create a series of films that align directly with the twenty most often diagnosed mental disorders as defined in the DSM-5® and
