

The BBC Horizon Collection

The BBC Horizon television program “tells amazing science stories, unravels mysteries and reveals worlds you’ve never seen before.” Horizon reveals the science behind a broad range of topics, including astronomy, physics, math, the environment, disease and more. The show makes the science accessible and engaging to students in a way that lectures or textbooks simply cannot do.

Spanning the years from 2009 to 2023, The BBC Horizon Collection is a comprehensive run of recent years of this series and is now available to libraries everywhere, for the first time ever, through ProQuest.

Topical Highlights:

- Astronomy
- Natural and earth sciences
- Environmental science
- Health sciences
- Physics
- Technology
